

AQUACULTURE
INNOVATION CHALLENGE

ARE YOU INNOVATIVE IN AQUACULTURE?

JOIN THE AQUACULTURE INNOVATION CHALLENGE KICK-OFF EVENT IN HCMC, VIETNAM

Kick-off | Aquaculture Innovation Challenge

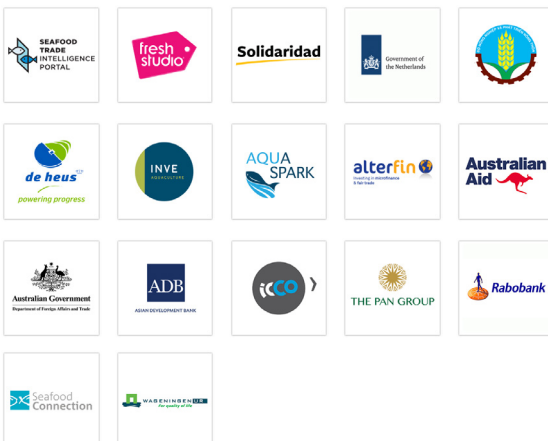

Seafood Trade Intelligence Portal, Fresh Studio and Solidaridad would like to invite you to join the Aquaculture Innovation Challenge kick-off event in HCMC, Vietnam.

The Aquaculture Innovation Challenge

By 2050, aquaculture production will need to grow by another 70 million tonnes to meet the world fish demand. The fish consumption has never been this high neither are people so depending on seafood for their well-being. Aquaculture is a significant opportunity to enhance food security and Vietnam, ranking as no. 4 producer of the world, has demonstrated its potential. However, the emergence of aquaculture raises major concerns in the country. The role of entrepreneurs will be the key to create necessary innovations for a sustainable aquaculture sector. Yet to realise ambitions and innovations access to finance and capital is of high importance.

The Aquaculture Innovation Challenge (AIC) main objective is to boost innovations by supporting individuals, organizations, companies, research institutes, universities and talented students with progressive ideas, innovations and solutions, but lacking the capital and finance. The AIC will give you the opportunity to connect to investors and sponsors to realize your ambitions.

Partners:
